Nov	100	250			30	0						
Dec	250	250			0	0						

3. Average stocking rates in livestock units

	Specify months	Average Stocking rate (LU/ha)
Summer	May - Oct	0.30
Winter	Nov - Apr	0.12

4. Comments

Cattle should continue to graze the land until the end of november if weather conditions remain favourable and no damage is being caused through proaching or overgrazing. Special care should be taken of the flushes to check that the cattle are not causing too much damage to these areas. These are marked on the FEP as MO8.
